

The Polish public broadcaster TVP brought forward the launch of the new channel TVP World

<https://tvpworld.com>

TVP World is an English- language news channel which you can watch:

- for free on the internet page tvpworld.com
- on the satellite television between 1:00 and 5:00 (Polish time) on Polish channel TVP.Info.

The reason for starting this new English - language channel was the political situation on the Polish- Bielarus border crisis which needed reliable information and reports instead of “fake news”.
